SUMMARY

Machine Learning Engineer with 3 years of professional software development experience and a strong foundation in deep learning, NLP, and computer vision. Currently pursuing a Master's in Artificial Intelligence. Adept at building end-to-end ML pipelines and holds multiple Oracle certifications in Data Science and Generative AI.

PROFESSIONAL EXPERIENCE

Gemini CAD Systems Software Engineer

Iași, RO
June 2023 – Present

- Built features spanning Qt's UI, networking, model/view, and event-handling layers
- Decomposed complex requirements into scoped deliverables, consistently meeting sprint estimations.
- Reduced technical debt through targeted refactoring and clean code, improving codebase resilience.
- Diagnosed and resolved production crashes and regressions through systematic root cause analysis.
- Participated in the full Scrum lifecycle: sprint planning, estimation, code reviews, sprint demos, and retrospectives.

Software Engineer Intern

August 2022 – May 2023

- Built UI components from design specifications, integrating them into existing production views.
- Delivered pixel-accurate UI and extended feature parameters through import/export integrations.
- Practised all Git workflow stages: branching, commits, merge requests, code reviews, and CI/CD.

Special Telecommunications Service (STS) IT Support Staff — Electoral IT Systems

Botoșani, RO
August 2020 – September 2020

- Provided technical support for electoral IT systems (e.g., SIMPV/SICPV).
- Assisted polling-station staff with application usage and hardware operation.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Data Science Professional (1Z0-1110-25) [↗](#)
- Oracle Cloud Infrastructure 2025 Generative AI Professional (1Z0-1127-25) [↗](#)
- Oracle Cloud Infrastructure 2025 AI Vector Search Professional (1Z0-184-25) [↗](#)
- Oracle Analytics Cloud 2025 Certified Professional (1Z0-1041-25) [↗](#)

SKILLS & COMPETENCIES

- Deep Learning Model Development & Training
- End-to-End ML Pipeline Construction
- NLP & LLM Application Development
- Model Deployment & API Serving
- ML Experiment Design & Evaluation
- Feature Engineering & Data Preprocessing
- Computer Vision & Object Detection
- Software Engineering & System Design

EDUCATION

Technical University of Iași Master of Science in Artificial Intelligence

Iași, RO
October 2024 - June 2026

Advanced Coursework: Neural Networks, Machine Learning, Natural Language Processing (NLP), Reinforcement Learning, Multi-Agent Systems, Cloud Computing, Big Data Techniques, Edge Computing Applications, Intelligent Cyber-Security

Bachelor of Science in Computer Engineering

October 2020 - June 2024

Core Curriculum: Advanced Computer Programming, Data Structures & Algorithms, Real-Time Programming, Database Management Systems, Systems Theory, Microprocessor-Based Systems, Embedded Systems Engineering, Control Engineering, Computer Networks, Neural Networks & Fuzzy Logic, Knowledge-Based Systems

PROJECTS

- GenAI with Physics Constraints (in progress)**

[↗](#)

2026

Eight-module pipeline converting natural-language prompts into physics-realistic MP4 videos. Parses text into a 3-D scene, generates assets (Shap-E), synthesises motion (SSM/KIT-ML dataset), simulates rigid-body physics (PyBullet), and optionally enhances frames with ControlNet.
- IDS/IPS Smart Firewall**

[↗](#)

2026

Team project (3 members); personal contribution: DBSCAN-based smart firewall that clusters observed attack payloads at runtime and auto-generates Snort rules, reducing ML detector load. Full system also includes a CNN classifier (95%+ accuracy) and an RL+BiLSTM adversarial attack agent.
- Hand Gesture Recognition**

[↗](#)

2025

End-to-end YOLOv5n object-detection pipeline for hand gesture recognition (HaGRID dataset). Optimised for NPU/CPU deployment via TFLite INT8 quantisation, CLAHE contrast preprocessing, and temporal smoothing to reduce false positives.
- AI Medication Assistant**

[↗](#)

2025

Full-stack RAG application: React/TypeScript frontend (GitHub Pages) backed by a Gradio API (Hugging Face Spaces). FAISS-indexed knowledge base of 1200+ medications across 20 medical categories; answers symptom queries and surfaces direct pharmacy links.
- Metaheuristic Framework**

[↗](#)

2025

Python library implementing Canonical GA, Real-Valued GA, Differential Evolution, and Random Search. Each solver is benchmarked on standard mathematical test functions with automated CSV reporting and convergence visualisation.
- fMRI Brain-Age Prediction**

[↗](#)

2025

Competition ML pipeline predicting biological brain age from ~20k fMRI neuroimaging connectivity features. Gender-stratified ElasticNet model with spectral feature selection; ranked 8th nationally at the WiDS Datathon 2025 University Edition.

VOLUNTEER EXPERIENCE

- LOCAL BEST Group Iași**

IT Department Coordinator

Iași, RO

Sep 2023 – Aug 2024

- Directed IT operations and maintained technical infrastructure across organizational events.
 - Mentored volunteers and oversaw delivery of technical projects.
 - Administered hardware, software licensing, and network resources.
- Event Coordinator | JobShop Career Event**

Nov 2022 – Apr 2023

- Coordinated logistics and operations for a large student–industry career event.
 - Managed scheduling, partner engagement, and on-site execution.
 - Improved attendee experience through strategic planning and workflow optimization.
- TOPICS Responsible | Prove It 24H Techathon**

Dec 2021 – Mar 2022

- Defined technical requirements and coordinated hackathon logistics.
 - Supported participants with rules, resources, and real-time assistance.
 - Facilitated communication between organizers, industry mentors, and teams.
- IT Responsible | BEST Training Weekend**

Jan 2021 – May 2022

- Developed and maintained the event website using HTML, CSS, and JavaScript.
 - Collaborated with design and marketing responsables on content, branding, and technical setup.

ADDITIONAL SKILLS

Frameworks:	PyTorch, TensorFlow, Scikit-learn, Hugging Face, LangChain&LangGraph, OpenCV
MLOps & Cloud:	Docker, MLflow, W&B, ONNX, Oracle OCI/OAC, Azure ML
Data & Dev:	Python, C++, SQL, Spark, Flask, FastAPI, React, NodeJs
Soft Skills:	Problem Decomposition, Clear Communication, Knowledge Sharing, Self-directed Learning
